Food is made from fresh Norwegian Kelp (*Ascophyllum nodosum*). The natural nutrients help plants grow and adapt. Foliar feeding offers rapid benefits that work quickly through the leaves. Helps improve soil conditions by feeding many beneficial micro-organisms.

DIRECTIONS **SHAKE WELL BEFORE USE**

Prepare for one application only.

Seeds and Bulbs: Soak overnight in solution of 1 oz. to 1 gal. of water. After planting, water with solution water for every 25 sq. ft. of area.

Cuttings and Rootings: Stand in solution overnight using 2 oz. to 1 gal. of water. Water with solution of 1 oz. to 1 gal. of water for every 25 sq. ft. of area.

Vegetables, Fruit, Outdoor Plants, Annuals, Perennials, Trees and Shrubs: Water with solution of 1 oz. to 1 gal. of water for every 25 sq. ft. every two weeks.

Lawns: Spray solution of 2 oz. to 1 gal. of water (to cover 1,000 sq. ft.) per month (minimum 5 applications per season). Use as a supplement to your normal lawn fertilization program.

Indoor Plants: Water with solution of 1 oz. to 1 gal. of water every two weeks.
